

APPENDIX E

USACE'S DEMOGRAPHIC DATA AND ANALYSIS

APPENDIX E. USACE's Demographic Data and Analysis

In response to OMB Bulletin 01-07, we compiled demographic information about the Corps work force. In addition, we also compared the Corps to the federal work force as a whole where comparable data was available. We selected six occupational series in the Corps to examine more closely. These six occupations were among the core competency functions and had the highest projected gaps between inventory and requirements. We present the demographic analysis for the Corps as a whole, and for these six occupational series specifically. Then, in the second part of this appendix we include the demographic information for the other occupational series.

The six occupational series we highlight in this chapter are:

0802—Engineering Technicians

0810—Civil Engineers

0830—Mechanical Engineers

0850—Electrical Engineers

1170—Realty Specialists

5426—Lock and Dam Operators

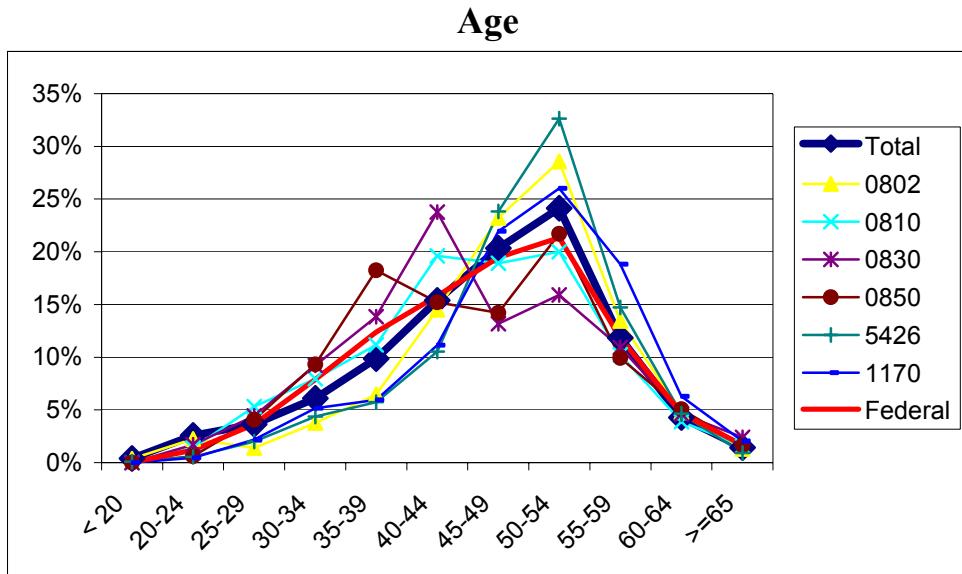

We present the demographic charts in the following order:

- ◆ Age
- ◆ Grade
- ◆ Retirement eligibility
- ◆ Loss projections
- ◆ Education
- ◆ Years of service
- ◆ Non-permanent employees
- ◆ Supervisors by plan and grade
- ◆ Supervisors by geographic location.

The rest of this appendix contains the same demographic information for the remaining occupational series.

- ◆ Age by occupational series
- ◆ Grade by occupational series

- ◆ Retirement eligibility by occupational series
- ◆ Projected separations by occupational series
- ◆ Education by occupational series
- ◆ Years of service by occupational series
- ◆ Non-permanent work force by occupational series
- ◆ Temporary appointment by occupational series.

The Corps has a slightly lower percentage of employees in the 60 years old and older group than the federal work force as a whole. However, the Corps has a higher percentage of its work force in the 45 to 54 group and a lower percentage in the 30 to 44 group than the overall federal work force. In the Corps, the lock and dam operators and engineering technicians are older than the Corps work force as a whole. The civil, mechanical and electrical engineers have a larger concentration in the 30 to 44 groups than the overall Corps.
